DID YOU KNOW? Schoolbelles has already started production for Fall 2013!

The planning and production of your uniform starts long before you order for next fall! Starting as early as November, our manufacturing department places fabric orders for many of our custom plaid fabrics, which can take up to 10-12 weeks just to weave and deliver the fabric to the factory prior to the necessary production time to have stock ready for the summer in May/June. Each winter, our sales representatives check with each of your schools for any updates that might affect our anticipated back-to-school stock levels, like changes to the dress code, updated enrollments by gender & grade level, and changes to the custom school embroidery or screened logos.

Cleveland, OH**

Our inventory department takes all this information, along with your school's buying history and shopping habits (such as in-store or online shopping), and adjusts our amounts and stock locations accordingly to prevent summer backorders whenever possible. Although backorders do sometimes happen, our sales representatives, store managers and inventory departments work continuously throughout the summer - and the rest of the year - to adapt to unexpected buying trends quickly for shorter turnaround times.
